# Tequipment Cayenne

Accessories for Cayenne models

# Equipment

**At Porsche the accessories are also brand products.**

The Cayenne S cannot be categorised. It's a Porsche. Where some may see a contradiction, for us it represents the core of the Porsche brand. We call it 'Ing.'.

This is the genetic code that is embodied in every Porsche. The code by which vehicles such as the 911, the Boxster, the Cayenne S and the Cayenne have been created. The code that is already at the heart of our name:  
Dr. Ing. h.c. F. Porsche AG.

It is the source of the design and quality that are the hallmarks of Porsche, the source of sportiness and unique style.

This code can be found in all model-specific Equipment products that are available to upgrade, individualise and care for your Cayenne.

These products are developed, tested and fine-tuned by the same Porsche designers and Porsche engineers that developed, tested

and fine-tuned the Cayenne. This all happens at the Porsche Development Centre in Weissach, Germany – from the design to the release.

All products are subject to extensive tests to examine the functional performance and the long-term durability on test stands, long-term trials and test drives. Because they must meet the high Porsche quality guidelines and standards, just as the high quality tools and materials do.

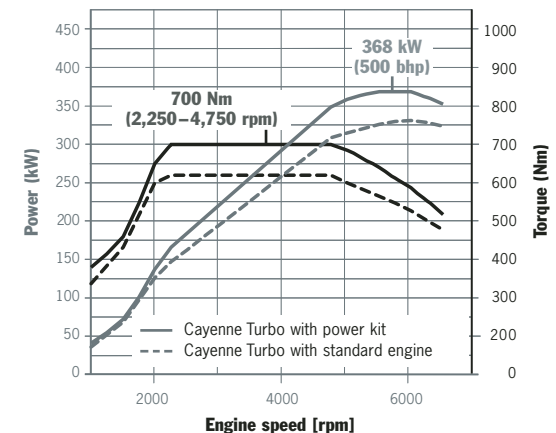

So that your Cayenne can stay exactly what it is: 100 % Porsche. Just a bit more individual.

For example, the increased power of the Cayenne Turbo is the result of numerous measures to optimise the vehicle, on the intercooling system, air routing, engine control, brakes and chassis. The development was sharply focused on the performance of the vehicle as a whole.

In numerous development stages, not only were the engine characteristics, performance, torque curve and braking performance enhanced, but the chassis was also adjusted in line with the increased power.

The fine tuning of all measures has been enhanced in extensive tests in our workshops, on test stands and in test drives in extreme weather conditions. The result: even better performance.

No matter what Equipment products you have retrofitted by your Porsche Centre, your warranty remains fully in force both for the product and the vehicle. This also applies to enhanced performance engines. It goes without saying that every modification that is made comes with full technical approval.

Inspection of the Cayenne Turbo engine with power kit in the cold climate

# Exterior – On-road

**Over 23,000 successful motor races leave their mark on a brand.**

**And its vehicles.**

Porsche DNA lies within the deep-rooted genetic heritage of every new Porsche. From this source springs the essence of sport and pure dynamism that is Porsche. Every element of the Cayenne expresses the genetic pattern of the Porsche sports car.

## ► SportDesign package

The SportDesign package is a body kit which makes the Cayenne even more sporty and dynamic, and optimises the aerodynamics. It consists of 4 components: a front apron lower body with round fog lamps and an integrated air shield,

side sill trims, a diffuser and an extended roof spoiler in a contrasting colour, harmoniously rounding off the overall appearance. Awarded the 2005 iF Design Award.

This package is not recommended for off-road use.

For the Cayenne/Cayenne S with sill trims:  
part no. 955 044 800 69  
For the Cayenne/Cayenne S without sill trims:  
part no. 955 044 800 71

For the Cayenne Turbo with sill trims:  
part no. 955 044 800 70  
For the Cayenne Turbo without sill trims:  
part no. 955 044 800 72

## ▲ Sill trims

Sill trims may be included in the SportDesign package or purchased individually. The set of right and left side sill trims enhances the racing lines of the Cayenne, giving it an even sportier look.

This package is not recommended for off-road use.

Part no. 955 044 800 75

#### ▲ Stainless steel skid plate

Your Cayenne's powerful and dynamic appearance can be enhanced by a stainless steel skid plate. Precisely matched to the colour of the other metal fittings on your Cayenne, the skid plate allows full, generous ground clearance. Additional rear protection is offered by the strong black plastic moulding.

Not suitable for vehicles with the SportDesign package.

For the Cayenne/Cayenne S:  
part no. 955 044 800 15  
For the Cayenne Turbo:  
part no. 955 044 800 16

#### ▼ Air inlet grille

Smiling brings a person's face to life. To give your Cayenne the same appearance of positive personality, you can add this air-inlet grille in matt Aluminium Look finish.

For the Cayenne/Cayenne S:  
part no. 955 044 801 00  
For the Cayenne Turbo:  
part no. 955 044 801 01

#### ▲ Fuel filler cap in Aluminium

##### Look finish

The fuel filler cap adds another high quality detail to your Porsche. Its design is oriented toward the tank-cap look of historic race cars. With engraved Porsche logo and safety clip.

Part no. 997 201 980 00

#### ▲ Roof rails

The ideal combination of form and function: the high-quality aluminium roof rail is elegant and adapted to the vehicle design – transverse bars can also be fitted for a roof rack.

The roof rail is available in black or in Aluminium Look. Please refer to page 34 for more detailed information regarding transport solutions.

Not available for vehicles with Panoramic Roof System.

Roof rails in black:  
part no. 955 044 000 62

Roof rails in Aluminium Look:  
part no. 955 044 000 30

#### ► Drip rails

The 4 plastic drip rails in black or in Aluminium Look do not only provide the perfect visual statement for the roofing area. They also perfectly and elegantly complement the roof rails.

Not available for vehicles with Panoramic Roof System.

Drip rails in black:  
part no. 955 044 000 65

Drip rails in Aluminium Look:  
part no. 955 044 000 29

# Exterior – Off-road

**Looks are one thing.  
Function is another?  
Not at Porsche.**

The Cayenne is clearly the culmination of the off-road sports cars that are part of Porsche's racing history, with countless victories in the world's toughest rally events.

The outstanding form and functionality are reflected in this comprehensive range of Tequipment exterior off-road options.

## ▲ Running board

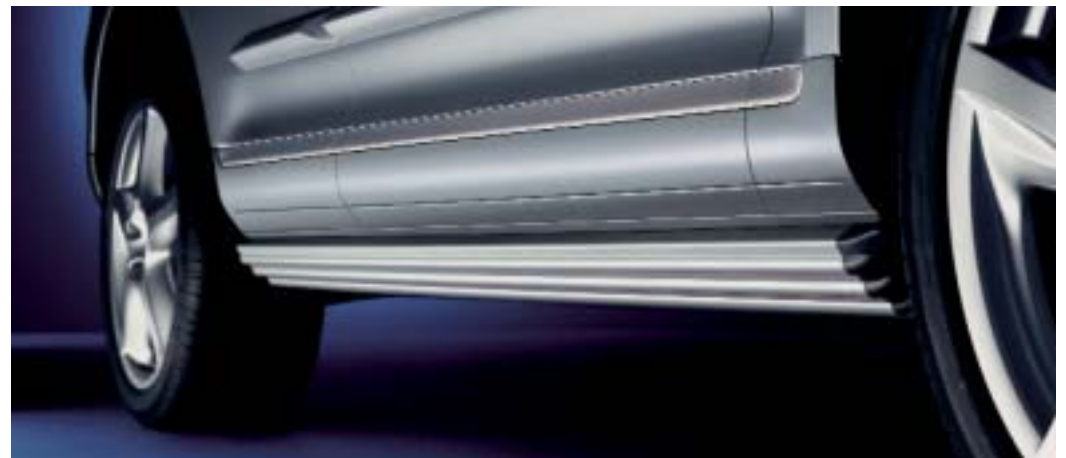

Robust high-quality aluminium running boards in high strength design. Their integrated underbody protection provides additional sill protection in off-road terrain and enables easy access to the vehicle and the roof loading system.

Part no. 955 044 801 08

## ▼ Rockrails

A stylish alternative to the optional running boards, these robust aluminium rockrails feature integrated skid-plates for added door-sill protection, and offer a discreet hint of the car's off-road capability. Made of high grade aluminium for maximum off-road style.

Part no. 955 044 801 07

#### ▲ Spare wheel holder

The hinged and lockable spare wheel holder arms you for all eventualities. The Cayenne off-road feel at its best. Wheel and spare wheel cover are not included.

Not in conjunction with 20-inch Cayenne SportTechno wheel with 10J x 20 rear axle rim.

Part no. 955 044 000 21

#### ▲ Spare wheel cover

The spare wheel cover offers effective protection against dirt and sunlight.

The logo is not included.

Part no. 955 044 000 14

#### ◀ Underside protection plate

On tough off-road terrain this underside protection plate in black paint finish will not restrict the entry angle and can be combined with the stainless steel skid plate (see page 8).

Part no. 955 107 981 00

#### ► Mud guards

The ribbed matt black mud guards protect the vehicle from excessive mud and dirt off-road and are well integrated into the overall design.

Not in conjunction with the SportDesign package.

Mud guards (front and rear):  
Not for vehicles with running boards, rockrails and sill trims.

Part no. 955 044 800 09

Mudguards (rear only):  
For vehicles with running boards, rockrails and sill trims:  
part no. 955 044 800 13

#### ► Side protection mouldings

These strong plastic mouldings protect the surface of your doors while adding an individual touch to the Cayenne's exterior. Available in all exterior colours.

Part no. 955 044 800 06

#### ► Wheel arch extensions

Enhance the powerful appearance of your Cayenne with wheel arch extensions for front and rear. Perfectly blended into the overall dynamic design.

For vehicles with mud guards:  
part no. 955 044 800 10

For vehicles without mud guards:  
part no. 955 044 800 11

# Wheels

**You can see beauty at first glance. Four times.**

Performance down to the last decisive detail – that is what Porsche drivers expect, wherever they are driving. Porsche Tequipment wheel and tyre units are perfect for equipping your Cayenne for sporty on-road driving. The 20-inch SportTechno wheel with 10-inch-wide rear axle rim is perfectly suited. Or perhaps you need general

purpose wheels for everyday use? The ideal choice would be the 19-inch Cayenne Design wheel. And to ensure that your Cayenne is ideally equipped, even in winter, there is the option of a full set of winter wheel and tyre sets with Porsche specifications.

## ▲ 20-inch Cayenne SportTechno summer wheel and tyre set

This strong design is a visible reminder of your Cayenne's sporty focus. The rear axle rim is wider than the front axle rim. This makes the rear of the Cayenne look particularly wide. The rear axle rim is also convexly shaped, making the wheel

appear larger. The clear design means that care is easy. Recipient of the 2003 iF Design Award.

## ▼ 20-inch Cayenne SportDesign summer wheel and tyre set

This elegant and sporty 10-spoke filigree design allows you a glimpse of the powerful Porsche braking system through a stationary wheel. In motion, the low profile tyres provide maximum mid-corner grip and safety.

For wheel dimensions and tyre sizes please refer to the table on page 19.

**▲ 19-inch Cayenne Design  
summer wheel and tyre set**

Simply looking at the distinctively light 10-spoke design is a pleasure.

**▲ 19-inch Cayenne Design  
winter wheel and tyre set**

The 19-inch Cayenne Design winter wheels are approved for speeds of up to 240 km/h (149 mph).

**▼ 18-inch Cayenne Turbo  
Winter wheel and tyre set**

This 18-inch Cayenne Turbo wheel set features a racing design coupled with added winter safety and is an ideal enhancement for the Cayenne and the Cayenne S.

**▲ 18-inch Cayenne S  
Winter wheel and tyre set**

This design combines filigree elegance with a sophisticated look and with safety at low temperatures.

For wheel dimensions and tyre sizes please refer to the table on page 19.

Note on the use of winter tyres:  
The Cayenne is fitted with Porsche summer tyres as standard. These quality summer tyres are the essential prerequisite for high tyre comfort, excellent grip, ideal handling properties – and thus a high level of safety and a unique driving experience. These tyres are perfect for the special Cayenne requirements at warm temperatures. Summer tyres begin to lose

grip as soon as temperatures fall below +7 °C. Porsche therefore recommends the use of winter tyres with Porsche specifications – you can recognise them by the N-label on the side of the tyre – in all low temperature conditions. These winter tyres ensure traction, lateral grip and optimum braking even at low temperatures.

#### ▲ Snow chains

Specially designed for the Porsche Cayenne, these low profile snow chains feature ultra-fine links and require minimum effort for mounting.

Snow chains (set of 2) for vehicles with tyre size 235/65 R 17 or 235/60 R 18: part no. 955 044 600 07  
Snow chains (set of 2) for vehicles with tyre size 255/55 R 18 or 255/50 R 19 (rear axle only): part no. 955 044 600 08

#### ▲ Spacers (17 mm)

Enable the rear wheels to align with the outer body line. Set includes wheel nuts. Anti-theft protection not available.

Not in conjunction with 18-inch Cayenne Turbo wheel and 20-inch Cayenne SportTechno wheel with 10J x 20-inch rear axle rim.

Part no. 955 044 600 23

#### ▲ Wheel centre set (round)

Wheel centres with full-colour Porsche Crest.

Set of four for 18-inch Cayenne S wheel: part no. 955 044 600 09  
Set of four for 17-inch Cayenne and 20-inch Cayenne SportTechno wheel: part no. 955 044 600 10

#### ▲ Wheel centre set (star)

Wheel centres with full-colour Porsche Crest.

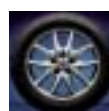

Set of four for 19-inch Cayenne Design wheel and 20-inch Cayenne SportDesign wheel: part no. 955 044 600 11  
Set of four for 18-inch Cayenne Turbo wheel: part no. 955 044 600 12

#### ▲ Anti-theft wheel bolts

Steel bolts for alloy wheels featuring an effective anti-theft coding system.

Set of four: part no. 955 361 057 00  
Set of five: part no. 955 361 057 01

If the wheel and tyre combination is not listed in your vehicle documentation, please request a manufacturer's certificate from your Porsche Centre.

Note: The wheel centres indicated are not included.  
The above tyre options, i.e. those featuring N0, N1 specification, etc. are exclusively designed for Porsche.  
These are the only tyres recommended by Porsche.  
\* Not suitable for Cayenne Turbo with power kit.  
\*\* Not suitable for Cayenne S and Cayenne Turbo.

**The best thing about the idea of performance?  
That it never ends.**

Do you want more than excellent performance? Then you must feel about the same as our engineers. They are always striving to make the seemingly impossible possible. That's how it's always been, in racing and in vehicle design and construction. So it's hardly surprising

that we try to achieve just that little bit more with the Cayenne, to make driving just that little bit more exhilarating.

## ◀ Power kit for Cayenne Turbo

An increase from 450 to 500 bhp that can satisfy the highest demands which is typically Porsche. With regard to durability and performance characteristics. In addition, the increase in performance also incorporates a larger brake system to match the increased power and an adapted chassis.

In the Cayenne Turbo the increase in performance is achieved by the considerably increased and performance enhanced charge-air coolers, flow optimised air circulation and newly applied engine management system. The result: 500 bhp (368 kW), whereby the maximum value in the rev range is between 5,500 and 6,000 rpm. The torque has been increased over a rev range between 2,250 and 4,750 rpm by 80 Nm to a maximum of 700 Nm. Acceleration from 0 to 100 km/h (0 to 60 mph): 5.3 seconds. Top speed: 270 km/h (168 mph).

It is not only the driving performance that has been enhanced, but also the braking performance that puts the Cayenne Turbo in another league. On the front axle there are 6-piston

aluminium monobloc brake callipers as well as internally ventilated two-piece brake discs with a diameter of 380 mm (standard: 350 mm) and a thickness of 38 mm (standard: 34 mm). The specially developed additional brake air supplies enhance the brake ventilation at the front axle. On the rear axle there are 4-piston aluminium monobloc brake callipers as well as internally ventilated brake discs with a diameter of 358 mm (standard: 330 mm) and a thickness of 28 mm. Impressive dimensions to be able to control the vehicle's power effortlessly.

Due to the enlarged brake system, 19-inch Porsche wheels must be fitted with the appropriate clearance.

Additional scopes may need to be ordered separately for a specific model year in line with technical information.

See page 3 for the performance diagram.

Part no. 955 044 100 00

## ► Four-tube sports tailpipe

Convey your sporty ambitions with the chrome-plated sports tailpipe in the characteristic Porsche 4-pipe look.

Please consult your Porsche Centre.

# Interior

**The Cayenne's design is classic, pure and sporty – just like every Porsche. Highlight one of these qualities with a range of interior features.**

In terms of comfort and functionality, the Cayenne interior exceeds the highest expectations. You can make the interior an even more personal statement of your own. Materials range from classically refined to purist, from elegant to robust and functional – whatever your taste or the application, you will find the perfect match to apply your own personal signature to the interior of your Cayenne.

► **'Olive' light**  
**(high gloss or matt finish)**

Wood trim in exclusive ash with 'olive' grain finish is a clear statement of elegance and individuality.

► **'Burr walnut' dark**  
**(high gloss finish)**

Dark walnut wood – classic perfection. Now also in the Cayenne.

► **Aluminium**

Elegant interior refinement in aluminium – brings the racing image into the very heart of your Cayenne.

► **Carbon fibre**

Reflect your passion for the race-track with carbon fibre – uniquely sporty and purist.

### ▲ Basic package

You want your Cayenne to be more individual? Maximum refinement, maximum sport? The wood and carbon fibre packages include dashboard trim strip, door trim

strips, lower part of the centre console including cupholder cover (in black leather in the carbon fibre option) and rear centre console trim. Centre and rear centre console surrounds in aluminium.

The aluminium package includes dashboard trim strip, door trim strips and front and rear centre console surrounds.

Please consult your Porsche Centre.

### ▲ Gear lever enhancement option

Changing gear should be as perfect as the rest of the drive. Gear lever with wood or carbon fibre finish.

Only for vehicles with Tiptronic S.

Light olive, high gloss\*:  
part no. 955 424 982 00  
Light olive, silk matt\*:  
part no. 955 424 983 00  
Dark walnut, high gloss:  
part no. 955 424 981 00  
Carbon fibre:  
part no. 955 424 980 00

### ▲ Grab handles enhancement option

Features centre console grab handles and trim for the door pulls for all doors.

Light olive, high gloss\*:  
part no. 955 044 800 85  
Light olive, silk matt\*:  
part no. 955 044 800 86  
Dark walnut, high gloss:  
part no. 955 044 800 84  
Carbon fibre:  
part no. 955 044 800 83

### ◀ Steering wheel rim enhancement option

Perfectly matched to the basic pack this enhances both the visual and the tactile appeal of your car.

Only in conjunction with the multi-function steering wheel. Without airbag unit.

Light olive, high gloss\*:  
part no. 955 347 804 50 + colour code  
Light olive, silk matt\*:  
part no. 955 347 804 60 + colour code  
Dark walnut, high gloss:  
part no. 955 347 804 40 + colour code  
Carbon fibre:  
part no. 955 347 980 00 + colour code

### ◀ Padded leather steering wheel

The padded leather steering wheel enhances both the visual appeal and the tactile handling of the car. The additional padding makes it easy to grip.

Only in conjunction with the multi-function steering wheel. Airbag unit not included.

For vehicles with a heated steering wheel:  
part no. 955 044 400 01 + colour code  
For vehicles without a heated steering wheel:  
part no. 955 044 400 00 + colour code

\* Finished in ash with "olive" grain.

#### ◀ Door entry guards in stainless steel, illuminated

An unusual and very effective feature for the driver and the passenger: the stainless steel door entry guards with the Cayenne logo, lit up in white, welcome you into your Porsche.

Part no. 955 044 800 00

#### ▶ Rubber mats

Set of four specially moulded impermeable mats featuring non-slip surface and optimum water dispersal.

LHD vehicles with twist button system:  
part no. 955 044 800 61  
RHD vehicles with twist button system:  
part no. 955 044 800 60

For vehicles with clip system please also order fixing set:  
part no. 955 044 800 64 8B2

#### ◀ Door entry guards in stainless steel

The stainless steel door entry guards are eye-catching, elegant and offer added protection for the door sill area on your Porsche.

Available for driver, passenger and rear doors.

Only for Cayenne:  
part no. 955 044 800 49

#### ▶ Velour mats

Set of four luxury velour mats in all standard interior colours. Tailored to the Cayenne, with non-slip fixings.

LHD vehicles with twist button system:  
part no. 955 044 800 62 + colour code  
RHD vehicles with twist button system:  
part no. 955 044 800 63 + colour code

For vehicles with clip system please also order fixing set:  
part no. 955 044 800 64 + colour code

#### ◀ Sun and privacy protection

All windows in the rear of the Cayenne are darkened. Protects from sunlight and maintains privacy. With Porsche logo.

Set for side and triangular windows:  
part no. 955 044 000 67

For rear window:  
part no. 955 044 000 68

#### ▶ Reversible velour mat for luggage compartment

Reversible mat to keep the luggage compartment clean: one side in velour matching the interior colour, the other side in rubber with non-slip surface.

For vehicles with two-zone air conditioning:  
part no. 955 044 800 04 + colour code  
For vehicles with four-zone air conditioning:  
part no. 955 044 800 40 + colour code

# Audio and communication

## The Porsche sound is legendary. With or without music.

Our high quality communications and HiFi programme is uniquely tailored to your Cayenne and can turn it into a mobile communication and audio centre. After all – it's not only the sound of your Porsche engine that should be individual.

### ▲ CDC-4 CD changer

Fully compatible with the Porsche radio CDR 23 and PCM, this six-CD unit is operated via the standard radio or PCM controls.

For vehicles with  
BOSE® Surround Sound-System:  
part no. 955 044 900 12  
For vehicles without  
BOSE® Surround Sound-System:  
part no. 955 044 900 04

## ► PCM including navigation system

Porsche Communication Management (PCM) features a built-in CD-ROM drive for audio and navigation data (for vehicles up to 05/04) or a separate DVD drive for navigation data (for vehicles after 06/04), 6.5-inch screen with 16:9 ratio for the sharpest resolution and the navigation unit. The satellite-based GPS navigation system with a separate antenna calculates your position and works out the route to your destination, including possible diversions using TMC (=Traffic Message Channel) in countries that support this service. Navigating the system menus is equally straightforward with the aid of a single, multi-function rotary control. The integrated radio system features an FM two-tuner frequency with RDS diversity and has 20 VHF as well as 20 MW presets.

Includes navigation DVD.

Please consult your Porsche Centre for information regarding suitability of your PCM and for part numbers.

### Navigation update (not illustrated)

Update the PCM navigation system with the data status of the Model Year 2005. The update consists of a system and map update and makes navigation generally more accurate. The map material covers new countries and is much more detailed. It will also be possible to use a whole range of new functions: destination entry using the postcode, TMC (=Traffic Message Channel) for more regions, use of an optional electronic logbook and much more.

Please consult your Porsche Centre for information on the data status of your PCM.

Part no. 955 044 900 07

### Vehicle Tracking System (not illustrated)

Enables remote location of a stolen vehicle within all 25 countries of the European Union as well as Norway and Switzerland. For more information on how the system works, please consult your Porsche Centre.

Only available in conjunction with preparation for Vehicle Tracking System.

A separate contract with the service provider recommended by Porsche is required. Results in further costs.

Expected availability from 12/05.

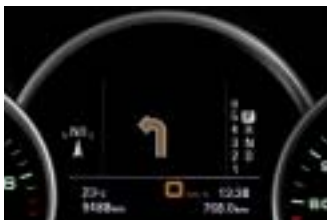

Please refer to the separate price list for part numbers and extra model-specific features.

### ▲ Upgraded navigation module

The upgraded navigation module works in conjunction with the GPS navigation system and covers destinations and navigation in areas that are not digitalised. It has a compass and provides important information on height, latitude and longitude. The backtrace function also allows you to call up and retrace a previous route.

For vehicles with PCM:  
part no. 955 044 900 18

### ▲ Compass

Compass displays N, E, S and W as well as NE, SE, NW, SW in the instrument cluster. Figure shows display in Cayenne Turbo.

Part no. 955 044 900 28

### ▲ Telephone module for PCM

The triband telephone module that can be installed in addition to PCM has a large transmission range in wave bands 900, 1,800 and 1,900 MHz. The PCM 12-button keypad makes it easy to dial telephone numbers.

For vehicles with PCM:  
part no. 955 044 900 03

### Electronic logbook (not illustrated)

The electronic logbook supports the user in keeping a logbook, where all relevant data can be recorded and the user input is reduced to a minimum. It is operated via the PCM menu. The electronic logbook includes PC software for subsequent evaluation of data. The data is output via the PCM infrared interface.

Only for vehicles with PCM, data status as of MY 2005. Please consult your Porsche Centre for information on the data status of your PCM.

Please refer to the separate price list for part numbers and extra model-specific features.

### Digital TV reception upgrade (not illustrated)

This module allows vehicles already fitted with an analogue Porsche TV tuner to receive digital TV. It is operated with a remote control using the PCM display.

For vehicles with a TV tuner:  
part no. 955 044 901 09

### ▲ HomeLink® (garage door opener)

Freely programmable garage door opener integrated into the roof console for up to three garages, gates, lighting systems or alarm systems. It is compatible with nearly all garage door and gate systems.

Part no. 955 044 900 26

### ▲ Porsche Rear Seat Entertainment

The basic system consists of a display and player console, wireless IR headphones and a remote control. It is not sensitive to movement, plays all standard formats (CD, DVD, MP3, etc.) and two separate, individually selected AV sources such as a games console or a digital camera can be connected. The system meets the high Porsche safety standard, blends in with the vehicle interior and is ergonomically designed.

The display console is attached to the backrest of the front seat. The headrest can still be adjusted as before. The 7-inch TFT display can be adjusted for optimum viewing. The games console attached firmly to the middle of the back seat can be quickly and easily removed if required. If required, you can always add another display console or set of headphones to your basic system.

Vehicles up to 06/03 require towbar system preparation.

Please consult your Porsche Centre for further information.

# Child seats

**You feel safe in your Porsche seat.  
And so do your children.**

Your Cayenne does not simply represent perfection in racing design – rigorous safety standards are also an important feature of the Porsche philosophy. For everyone in the car, even the smallest passengers – with child seats from Porsche Tequipment.

▼ **Porsche child seats**

Porsche child seats guarantee security and comfort for the youngest Porsche passengers. The outer rear seats and front passenger seat in the Cayenne are fitted with the ISOFIX anchor system as standard. This system is specifically designed to attach the child seat directly to the seat.

Telescopic rods on the child seat slide out and slot into anchor points between the backrest and seat and hold the child seat securely against the backrest. Porsche ISOFIX child seats can alternatively be fitted using the standard three-point safety belts.

The Porsche range of ergonomically designed child seats also matches the car interior in every way.

**Seat size reduction option (not illustrated)**

This option is designed to reduce the size of the Porsche Baby Seat ISOFIX, G 0+ and provides support for the head of a newborn child.

Part no. 955 044 800 58

Child seats	Models	Group	Weight	Age
	<b>Porsche Baby Seat ISOFIX, G 0+</b> Part no. 955 044 800 42  <b>Seat size reduction for Porsche Baby Seat (not illustrated)</b> Part no. 955 044 800 58	0+	to 13 kg	to approx. 18 months
	<b>Porsche Junior Seat ISOFIX, G 1 + G 2</b>  Part no. 955 044 800 44	1 + 2	9 to 25 kg	approx. 9 months to 7 years
	<b>Porsche Plus, G 2 + G 3</b>  Part no. 955 044 801 02	2 + 3	15 to 36 kg	approx. 3½ to 12 years

# Transport

**You can fit a lot into your Cayenne.  
Take more with you.**

Extend the versatility of transport options on your Cayenne. You may want to use the adjustable cross bars in conjunction with the roof rails (max. payload 75 kg). Or you may prefer the roof transport

system, which is designed for vehicles without roof rails (max payload 100 kg). Both systems can accommodate a wide range of items.

## **Roof transport system (not illustrated)**

This easy-to-use system is designed specifically for the Cayenne and offers a maximum payload of 100 kg. The adjustable bars can be mounted into pre-defined positions and can carry a range of load-carrying attachments. The lockable clamping system provides optimum anti-theft protection.

Part no. 955 044 000 72

## **▲ Adjustable cross bars**

These elegant transverse bars are suitable for use with various Equipment carrier systems and are easily fitted to the roof rails. They have a maximum payload of 75 kg and feature built-in anti-theft protection.

Part no. 955 044 000 35

## **▲ Loading aid**

With this practical system, the loading bar swings down to the side to enable comfortable handling of loads at chest height. Can be used in conjunction with a range of roof accessories.

Part no. 955 044 000 04

## **▲ Surfboard carrier**

Secure transportation for surfboard and mast.

Part no. 955 044 000 07

## **▲ Racing bike carrier**

Special Porsche fixing system for your racing bike, with rapid-action front clamp and adjustable rear-wheel grip, provides an easy loading facility.

Not suitable for bikes with front fork suspension.

Part no. 000 044 000 52

## **▲ Bike carrier**

This lockable carrier is ideal for the transportation of all standard bikes (adult or child) up to a frame diameter of 85 mm. Easy loading for up to four bikes.

Part no. 955 044 000 66

#### ▲ Ski/snowboard holder

For up to four pairs of skis or two snowboards.

Part no. 955 044 000 23

For up to six pairs of skis or four snowboards.

Not available in conjunction with the loading aid.

Part no. 955 044 000 24

#### ▲ Boat carrier

Secure transportation for boats.

Not suitable for inflatable boats.

Part no. 955 044 000 05

#### ◀ Roof box, narrow

Lockable plastic box offering maximum capacity of approx. 310 litres (L x W x H: 2,260 mm x 550 mm x 380 mm); with built-in ski carrier. Opens both sides.

Part no. 955 044 000 47

#### ◀ Roof box, wide

Lockable plastic box offering maximum capacity of approx. 450 litres (L x W x H: 2,250 mm x 817 mm x 245 mm); with built-in ski carrier.

Not available in conjunction with the loading aid.

Part no. 955 044 000 12

#### Towbar system

The Cayenne offers a maximum braked trailer load of 3.5 tonnes by using one of two optional towbar systems. Both have a maximum payload of 140 kg and are supplied equipped with a 13-pin plug socket. Neither trailer system restricts the wading capability of the vehicle.

Vehicles up to 06/03 require towbar system preparation.

#### ▲ With electrically retractable tow-ball

With a simple press of a button, the tow-ball can be retracted beneath the rear of the car. When fully retracted, the car can be parked and loaded as normal.

Part no. 955 044 000 11

Adapter for reduction from 13 to 7 pin plug connector.  
Part no. 955 044 000 64

#### With detachable tow-ball (not illustrated)

An easy-to-use automatic unlocking system makes it simple to remove the tow-ball, which can then be stowed in a special compartment beneath the floor of the luggage compartment. The tow-ball itself has an anti-theft locking system.

Part no. 955 044 000 09

Adapter for reduction from 13 to 7 pin plug connector.  
Part no. 955 044 000 64

#### ◀ Guard cage

To protect the passenger compartment, this steel barrier system comprises a versatile, three-way metal grid positioned across the vehicle behind the rear seats and includes a through-loading facility for skis and other long items.

Not suitable for vehicles with four-zone air conditioning:  
part no. 955 044 000 13

#### ▲ Loadspace liner

Inconspicuous and effective water-proof liner protects the floor of the luggage compartment from dirt and general wear and tear. Non-slip, with a dirt-repellant surface, the liner can be wiped clean.

For vehicles with four-zone air conditioning:  
part no. 955 044 000 18  
For vehicles with two-zone air conditioning:  
part no. 955 044 000 17

#### ▲ High-sided loadspace protector

This high-sided, tough plastic tray protects the floor and especially the sides of the luggage compartment against dirt and general wear and tear. Tailored fit, washable, waterproof, acid-resistant and suitable for carrying foodstuffs.

For vehicles with four-zone air conditioning:  
part no. 955 044 000 16  
For vehicles with two-zone air conditioning:  
part no. 955 044 000 15

#### ▲ Load retention system

Floor and side nets for secure transportation of various items in the luggage compartment. The luggage net has four integrated hooks that attach to fixed rings on the floor of the luggage compartment. Highly elastic – variable size. Easy to use.

Part no. 955 044 000 03

#### ► Cargo system

This ultra-compact and collapsible system is tailored to your Cayenne and comprises two nylon bags and an attachment system. It fits neatly into the luggage compartment and is ideal for a wide range of applications (e.g. shopping, sport or business). The nylon bags can be easily detached for use as shopping bags. Includes non-slip mat.

Part no. 955 044 000 19

#### ◀ Cool box

This practical refrigerating cool box offers a 12-litre capacity for cooling drinks and foodstuffs. It features a Porsche-patented attachment system for safe transportation, a 12-volt connector and battery discharge protection.

Part no. 955 044 900 00

# Accessories and car care

**Even the best relationships need loving care.**

Pure racing design – the joy of driving. Not only in summer – as the racing character of a Porsche shines through, whatever the weather. That's where the car care and accessories can help to keep your car running smoothly in all weather conditions. And to ensure that your Porsche is as much fun in the years to come.

## ▲ Outdoor car cover

Snugly fitting, water-resistant, silver outdoor car cover with the Porsche Crest and logo to protect your vehicle from weather conditions such as strong sunlight. With anti-theft features.

Part no. 955 044 000 70

## ▲ Indoor car cover

Indoor car cover made of breathable, anti-static material with full-colour Porsche Crest and logo.

Part no. 955 044 000 00

## ▼ Porsche Charge-o-mat II

Charger and trickle charger. This can be left connected for many months and prolongs the life of your battery.

Part no. 955 044 900 17  
Part no. 955 044 900 16 (GB)

For vehicles without cigarette lighters:  
Adapter: part no. 000 043 202 55

#### ▲ Rechargeable torch

The neatly designed torch features a fold-out magnifying glass for reading. Rechargeable from the cigarette lighter.

Part no. 000 044 900 79

#### ▲ Tool kit

High-quality leather case with a selection of the most important tools and tool sizes for spare-time and hobby repairs.

Part no. 955 044 000 01

#### ▲ Interior care kit

Set of care products for the interior of the vehicle. Includes velour cleaner, leather cleaner and care, interior glass cleaner, plastic polish and accessories.

Part no. 955 044 000 53

#### Porsche Financial Services

We've developed a range of innovative financial services, carefully tailored to the needs of Porsche owners, including competitive finance and leasing schemes, insurance and the Porsche Card.

#### Porsche Used Car Programme

The Porsche Used Car Programme is designed to help you find the very finest examples of pre-owned Porsche vehicles. Each car is rigorously tested to the highest Porsche standards and comes with comprehensive warranty cover.

#### Porsche Exclusive

With our factory-fitted personalisation programme, you can now create your perfect Porsche. In terms of styling, specification or both. All modifications are uniquely handcrafted for your car.

#### ▲ Ice scraper

Ice scraper with aluminium telescopic handle for easy removal of ice and snow from your Porsche.

Part no. 955 044 000 02

#### ▲ Cayenne car care case

Aluminium case containing a selection of car care products specially adapted for the Cayenne.

Part no. 955 044 000 20

#### ▲ Alloy wheels care kit

Contains cleaning and care materials together with a set of brushes for alloy wheels.

Part no. 000 043 202 24
