Masterpieces

Masterpieces

The Masterpieces from Porsche Driver's Selection are fascinating items that demonstrate real engineering skill. These exclusive design objects combine a genuine enthusiasm for sports cars with a passion for high end technology.

Some are produced from original parts, like the rear spoiler that has been transformed into a bookshelf. Others draw inspiration from the timeless shapes found on legendary vehicles, like the 911 silhouette luminaire. Some are strictly limited editions, like the true-to-life 1:8 model of the 918 Spyder.

Others, like the wall clock crafted from the rim of a 911 Turbo, create quirky design pieces. But whatever you choose, you'll find uncompromisingly high standards of design and quality – perhaps the most authentic way to experience a Porsche without actually driving one.

918 Spyder fuel consumption [in l/100 km]: combined 3.1–3.0; CO₂ emissions: combined 72–70 g/km; power consumption [in kWh/100 km]: combined 12.7; electric range [NEDC]: > 31 km
911 Turbo fuel consumption [in l/100 km]: urban 13.2 · extra-urban 7.7 · combined 9.7; CO₂ emissions: combined 227 g/km

Masterpieces

[1] Office chair.
Original sports seat [4-way Plus] as featured in the current Porsche 911 Carrera. Continuous seat height adjustment. Electrical backrest adjuster powered by rechargeable battery. Adjustable armrests. With hook for jacket on rear and Porsche Crest emblazoned on the head section. Seat surface and armrests made of Porsche original black vehicle interior leather. Shell made of grey-silver composite. Chrome hub base with five castors for optimum comfort on both hard and soft floors. Weight: 35 kg. Made in Germany.
